### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The instant invention is found allowable because no art could be found addressing the needed transparency combination of photoinitiators required in the instant claim language. Rohde et al (4,935,320) give reason to avoid curing in 365 405 and 436 region for a photoadhesive. Ichikawa et al is cited three times because this examiner cannot get the software to cancel out the extra boxes on the electronic form required to form this Office Action. Ichikawa et al shows in the Figure why matching wavelengths is complex for choice of photo curing initiators.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

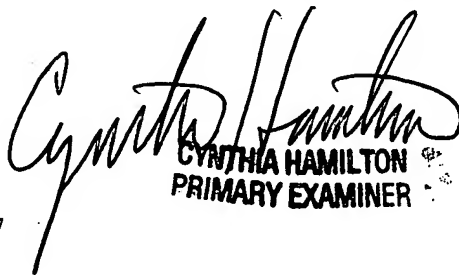

2. Applicants did not submit any of the documents cited in their Information Disclosure Statement of 29 September 2005. What was submitted were English Abstracts for these documents. The examiner considered the Abstracts and marked them as Other References but then in citing documents of relevance, the Examiner to make the record complete cited and entered into record all of the cited Japanese documents and US documents in the Japanese citation of applicants' Information Disclosure Statement of 29 September 2005 in order to allow this application without issue of what was of record when allowed. All were fully considered.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cynthia Hamilton whose telephone number is 571-272-1331. The examiner can normally be reached on Monday through Friday 9:30 am to 5:00 pm.

Art Unit: 1752

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cynthia H. Kelly can be reached on (571) 272-0729. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
